

FOR IMMEDIATE RELEASE: 15 August 2020

Architecture and design capability added

Dublin, Ireland: GFL today launches its partnership with a young and vibrant UK architecture and interior design practice, thereby expanding and widening the base of services it offers to clients.

GFL has become the commercial partner to the LLP and, as such, brings a wealth of cross-border experience to the table.

This strategic partnership gives clients direct access to *[rock paper scissors]* exceptional design capability for projects across the EU market.

GFL will in turn have access to UK clients through the partnerships' Edinburgh and London bases, providing UK clients with access to GFL services.
